To whom it may concern

COILS AUSTRALIA PTY LTD

Over the past two years we have used chilled water, heating hot water & steam heating coils from Coils Australia on a number of commercial/industrial air conditioning projects in Tasmania.

We have found that Coils Australia provide a quality product at competitive pricing with efficient & reliable technical support and we expect to use Coils Australia products on future projects in the Tasmanian market.

I have no hesitation in recommending Coils Australia as a supplier of coils for the HVAC industry.

Yours faithfully
A.E. Smith & Son
